Nava Jeevan
alleviate poverty through microfinance schemes for women from humble backgrounds. Their team uses Imprint to track field agents across cities to ensure improved efficiency and greater beneficiary coverage.

Asti Fleet Management
Employee Transportation Solution

AFM's unmatched suite of features for employee safety, fleet optimization, vehicle maintenance and lower carbon footprint have made it one of the most trusted employee transport automation solutions. We are elated to partner with GlobalLogic, adding another feather to our cap!

GlobalLogic A Hitachi Group Company

Our Tech Team Has Been Busy! Here's What's Fresh Off the Tech Stacks!

IMPRINT
- Employee can select any of the completed trips to apply for reimbursements
- Mapping of employees with vehicle type, for easy expense calculation
- Appointment Bulk Upload that enables appointment creation with all customer details from a single excel file.
- Appointment Report that shows all appointments scheduled for the employees along with performance analysis based on targets achieved.

AFM
- Option for employees to raise claim for hired/own vehicle expenses in case the company shuttle suffers a breakdown or doesn't ply
- Convenient option to replicate pick-up roster as drop roster
- To manage hybrid work models, employee transportation request can be raised as per that model also
- For multiple vendors, vehicle allocation ratio for each vendor can be specified

All Work & No Play??
Never the case at Asti Infotech!

"We completely believe in the philosophy of balancing work with fun activities, team building exercises and weekend dinners!"

"And we never forget to applaud and encourage those team members who push the envelope and go that extra mile to help us achieve excellence in what we do."
